

Lee Sweeten, Commissioner

Edwards County, Prec.2

Big Shout out to The Edwards County Road Crew.

Just got off the phone with our Foreman Larry Beach and he gave me the following update:

Ray McDonald's Crossing (Real County) open and our crossing going into Stewart Mountain Estates is open

Camp wood Hills Crossing is open and so is Miller Creek inside Camp Wood Hills

County Road 350 up to County Road 310 is open and so is County Road 310 from Pink House to HW 55 by Airport

County Road 353 first 2 crossings west of Barksdale are open and County Road 353 off County Road 350 first crossing I open, NOT One Crossing in the middle of CR 353 is still closed

Concrete Crossing on 380 is open (not sure about 380 going on thru Carson's

Crews are working on Crossing on County Road 374 and may have it open before the day is over.

NOTE: Dry Creek Crossing is not fixed and may be early next week before it is.

I believe this is about as fast as we have ever gotten this many crossings opened. Granted the crossings along with the county roads are not in perfect shape but are accessible.

If you have opportunity to see any of the crew, take a moment and tell them you appreciate the effort and hours they have put in to accomplish this. I am sure they would appreciate it and I know I would
